EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Bennett on 2/22/05.

The application has been amended as follows:

In the Claims:

1. Cancel claim 18
2. Amend claim 16 as below:

Claim 16. (amended) A composite electronic component comprising: a first case member; a surface acoustic wave device mounted on the first case member and which includes a package, a surface acoustic wave element accommodated within the package, and a ground terminal, the package having a conductor in at least one portion thereof; and a conductive second case member to be connected to a ground potential and fixed to the first case member, the conductive second case member having an opening in one portion opposing the conductor of the package; wherein the conductive second case member is metallic; and the opening has a planar square shape positioned to oppose the top of the package so as to prevent electrical connection between the conductive second case member and the top of the package.

Allowable Subject Matter

2. Claims 16-17, 19-28 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Re claims 16-17, 19-28, prior arts do not teach or suggest the combination of a composite electronic component wherein the conductive second case member has a planar square shaped opening in one portion opposing the conductor of the package to prevent electrical connection between the conductive second case member and the top of the package of the surface acoustic wave device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

4. Claims 16-28 were found to be directed to non-elected species. The examiner and the attorney for the applicant have agreed that examiner would withdraw the restriction requirement.
